

Remarks

The following is in response to the Office Action dated January 11, 2006 and subsequent to the interview held between the examiner and the undersigned on February 22, 2006.

Appreciation is hereby expressed to the examiner for the courtesy she showed the undersigned during the aforementioned interview.

As agreed to in the interview, claims 1 and 6 have been amended and claim 13 added. It is believed that these claims each are patentably distinguishable over O'Connor (US 5,648,767), for O'Connor fails to teach an antenna that covers an area under the antenna. Nor does O'Connor disclose a single vehicle sensor within the system and positioned within the service zone so that only one vehicle within the service zone is sensed by the vehicle sensor at any one time.

In view of the above, the examiner is respectfully requested to reconsider the application and pass the case to issue at an early date.

Respectfully submitted,

Louis Woo, Reg. No. 31,730
